Genteel Crime in England.

At a meeting of the Social Science Association, a paper on "Joint Stock Frauds" was read, from which we clip a few paragraphs, concerning defaulters."

WALTER WATTS.

The result of the extraordinary success of the joint stock principle, within the last twenty years, has been that numbers of persons of humble origin, of indifferent moral principles, have been brought into contact with enormous sums of money, the appropriation of which has been extremely easy, and these persons have appropriated enormous sums, careless about detection, and ready to pay the penalty of their liberties or their lives, if detection should follow. The first case to which I think it right to call attention, is the case of Walter Watts. He was a clerk in the Globe Insurance Company in London, at a salary of £200 per annum. Between the months of August, 1844, and February, 1850, he abstracted £70,000. When he commenced the system of defalcations, he was only 25 years of age; but the life he led during his six years of public plunder was remarkable. In 1844, the name of Walter Watts suddenly became associated with fashionable and Corinthian life in London. He became a patron of art and pleasure in its most extravagant form; he kept an establishment at the West End and a country house in Brighton; he had one of the best cellars in London, stocked with the rarest vintages; he had some of the best horses in London; he was a devoted attendant on the theatres. In 1847, he became lessee of the Marylebone Theater, and during that year the celebrated Mrs. Warner appeared there as the star of the unsuccessful legitimate drama.

During the seasons of 1848 and 1849, Mrs. Mowatt and Mr. Davenport, two American artists, played at Watts' theatre. Watts spared no expense. Mrs. Mowatt's dressing-room beneath the stage was fitted up like a bower of the Genii in "The Arabian Nights." In fact, the brilliancy of the expenditure of the Marylebone Theatre was the subject of conversation all over London during the year 1849. The only persons who knew nothing about it appeared to be the Directors of the Globe Office, in which Watts, spending £10,000 a year, was a clerk at £200 a year. In 1849 he opened the Olympic Theatre, but the extravagant and splendid management of this Temple of Thespis only lasted a few months before his frauds were detected. The defalcations during the year 1849 alone amounted to £18,000. In the receipt department of the office there was no effective check against fraud, although owing to the integrity of the officials, no fraud took place, and in the accountant's office, in which Watts was employed, the lax practice prevailed of making the bankers' pass-book the foundation of the entries in the books of the company, instead of the documents referring to the payments ordered, so that if the persons having the custody of the pass-book chose to falsify it, the false entries were transferred to the general books of the office, and thus made to cover abstractions effected through the bankers. Watts, being tried and convicted, committed suicide.

JOHN SADLEIR.

The next case of a similar character is that of John Sadleir. John Sadleir, in 1836, was admitted as an Irish attorney, and practised with success in the country and in Dublin. In 1847, he was elected a member of Parliament. In 1853 he was appointed Lord of the Treasury under Lord Aberdeen. He looked forward to be Chief Secretary for Ireland, or Chancellor of the Exchequer, and had a fair chance of either of these great offices. All this splendid position he owed to the fact of being enabled to use the money of the Tipperary Joint Stock Bank. He himself was a man of simple and inexpensive habits, and the only relaxation he took was hunting, which he did not carry on in an extravagant manner. His resignation of his place at the Treasury, and retirement from the Government, were followed by his resignation of the post as chairman of the London and County Bank. His credit was then gone in London. His forgery of the title deeds of the Irish Encumbered Estates Court was detected; and, on the 16th February, 1850, John Sadleir committed suicide at the age of 42. From the Tipperary Bank John Sadleir abstracted over £200,000. As chairman of the Royal Swedish Railway Company, he issued false shares to the amount of £150,000, the whole proceeds of which he appropriated. The most singular part of John Sadleir's frauds is this—that over a quarter of a million of money he received is unaccounted for; that is, there is no tangible

method of explaining how the money was spent, or who received it from him.

THE BRITISH BANK DIRECTORS.

The Royal British Bank was started in the year 1850, with a capital of £100,000, one half of which was paid up. The board managed its affairs in the way every dishonest board in every joint-stock bank can do if they please. Mr. Cameron the manager, became indebted to the amount of £30,000. Mr. McGregor, £8000, Mr. Mullins, £7000, Mr. Gwyn, (another of the old directors and original projectors) £13,000, of which no account was rendered to the shareholders, and of which it is extremely problematical whether the creditors have recovered one penny. And one of the auditors, who, it may be presumed was a little too prying, found it more convenient to accept an advance of £2000 than to enter into disagreeable questions of vouchers and cheques. Mr. Humphrey Brown, M. P., on the day he opened his account paid in £181 14s., and he drew money until he was debtor to the company to the amount of £70,000. The bank stopped on the 3d of September, 1856; during its existence of six and a half years, it exhausted the whole of the £158,000, subscribed by the shareholders, and left them besides half a million in debt. The British Bank directors were tried for a conspiracy to defraud, and they were convicted. Still the heaviest sentence was twelve months, and there are thousands of persons who would submit to twelve months imprisonment for £50,000.

WILLIAM JAMES ROBSON

Has immortalized himself in the annals of crime, by his frauds on the Crystal Palace Company. In 1853, he obtained a salary there at £1 per week, and in June, 1854, he was appointed chief clerk in the transfer department, at a salary of only £150 per annum. But Robson was a well educated, refined, and gentleman-like man, 34 years of age, with literary tastes; the author of several plays, and having a large circle of acquaintances in London. The simple plan by which he obtained £27,000 by false pretences was this—Robson directed a Mr. Clement, a stock broker, to sell 100 shares in the company, and the broker accordingly sold them—fifty to a Mr. Joseph Lowe, and fifty to another person. For these shares the broker received £295, which he paid over, less commission, to Robson. The document by which these shares were transferred purported to convey the shares from Johnson to the purchasers. The signature to the deed, where the name of the transfer should be, was that of Henry Johnson—nominally, of course, written by that gentleman, who, however, had no existence, the whole thing being a forgery on the part of Robson. Like Watts, Robson lived in a most extravagant style. He was sentenced to be transported for 20 years.

Ex "Prince of the Seas."

AND OTHER LATE ARRIVALS.

HENRY NATHAN,

OFFERS FOR SALE

BLANKETS, 2 1-2 & 3 points.

THE BRITISH COLONIST

Wednesday Morning, Feb. 12, 1862.

How FARMERS DO IN RUSSIA.—A friend has laid before us a German work entitled "Directions for Raising Stock," in which we find a method, originally adopted by a Russian nobleman of Mohilev, named Sabloski, for preventing horses and cattle from starving during the long winters of that country. This nobleman was in the habit, in the fall of each year, of sending his people to gather moss from trees and low swampy ground. The moss thus obtained was placed in small heaps in the open air, and the heaps well saturated with salt water or brine, and left until required for use, when it was cut off while in a frozen state and fed to the horses and cattle. The consequence of this diet was that his animals thrived just as well as those of his neighbors who fed with hay or grain. The only expense incurred, beyond the cost of gathering, is for twenty pounds of salt to a ton of the moss. It is cheaper than any other kind of feed that can be adopted in that country: and if we are ever again to be visited with another winter such as we are just passing through, the information may prove invaluable to our farmers.

THE "TRUE BRITON'S" DESTINATION.—There are two stories told as to the destination of the ship True Briton, an account of whose escape from Port Townsend we published yesterday, many asserting that she will call at Alberni and take on board a new crew, and others that she will not stop short of Honolulu, S. I. We believe the latter assumption to be the correct one; but how about the eight men and the "village blacksmith," who the Port Townsend *Northwest* says were "shanghaied" under pretence of working the vessel to Victoria? Will they submit to be carried off from their homes without a desperate struggle for liberty? If the facts are as stated in the *Northwest*, the "shanghaied" will prove themselves great fools by consenting to remain aboard without at least attempting a mutiny. Had the vessel put in at Alberni, it is said that another writ from the Sheriff of V. I. awaited her. Hence her departure for the Islands.

THE PUGET SOUND AGRICULTURAL CO.'S PROPERTY.—Yesterday was the day set for the sale of this company's Steilacoom (W. T.) property by the Sheriff of that county for non-payment of local taxes. The Sheriff professes to act under an Act just passed by the Territorial Legislature, which Act the U. S. District Judge has declared unconstitutional. The Governor of the Territory on Monday issued a proclamation cautioning the Sheriff from selling the property and sent down two U. S. Marshals, fully clothed with power to call out the military if necessary to prevent the sale.

FROM THE NORTHWEST COAST.—The schooner Langley arrived yesterday from Fort Simpson with furs. She spoke the Kingfisher with the Stickeen gold-hunters aboard, on last Saturday week, about two hundred miles above here. The Indians on the coast are reported as threatening. The Langley will probably leave for Stickeen River in a fortnight.

MR. DEVINE'S BENEFIT.—This interesting entertainment will come off this evening. The athletes appear in fine trim for the exhibition, and will do their best in behalf of their teacher to whom they are greatly indebted for their perfect knowledge of gymnastics.

LECTURE.—Dr. Evans' lecture on "Civilization as connected with European Civilization," was well attended. The reverend lecturer treated the subject in a masterly manner, and the manifestations of approbation and satisfaction on the part of the audience were frequent. No lecture of the course has given more general satisfaction.

NANAIMO.—The schooner Alpha arrived from Nanaimo yesterday afternoon with 60 tons of coal for the Victoria Coal & Lumber Company. The bark D. M. Hall arrived at Nanaimo on the 5th and is discharging ballast. The new shaft is down fifteen fathoms.

GOLD.—We hear flying rumors of gold discoveries recently made on a creek emptying into the ocean about thirty miles south of Cape Flattery. The story goes that the natives there have struck good diggings; but we don't believe it.

DEPUTATION.—A deputation of two from New Westminster waited on His Excellency yesterday, in regard to the mail subsidy, and were placed in possession of information as to the action of the Government in the premises.

The Constitution has been chartered to bring a cargo of horses, mules and cattle to this port, from the Sandwich Islands, for J. J. Dowsett and J. Meek.

Mr. James A. McCrea was last evening chosen Treasurer of the Fire Department of this town, vice William Walls, deceased.

The schooner Gen. Morgan, bound to Hongkong from Port Townsend, on the 18th Nov., put in at Honolulu, S. I., when 55 days out, short of provisions and water.

FOR STICKEEN RIVER.—The sloop Hamly is up for the Stickeen River gold diggings, and will sail on Saturday with passengers.

THE HUDSON BAY COMPANY AND THE "ENTERPRISE."—It is a fact that the Hudson Bay Company have been in treaty for some weeks past for the purchase of the fast and elegant steamer Enterprise, now engaged in the U. S. mail service between this port and the Sound. The Company, we hear, have made a final offer to her owners, a positive answer to which is expected on Friday. The owners are disposed to sell, but ask the matter of a few thousands more than the H. B. Co. are willing to pay. The Enterprise is one of the fastest river boats on the coast, and, if purchased, will be placed on the route to New Westminster. She will carry passengers and light freight, and, if necessary, can make a trip from here to the river and back easily in a long summer day. She will probably be strengthened somewhat before going on the route; but the old Otter will carry most of the freight. For the convenience and safety of the traveling public alone, we hope that the company or some other parties will buy the Enterprise or *co-cu* to build a more suitable boat for the trade than any at present running in these waters.

From the Sandwich Islands.

The barkentine Constitution arrived from Honolulu, S. I., at 9 o'clock yesterday morning, with 16 passengers and a cargo of Island produce and fruit. The Constitution was 20 days in making the passage, and had fine weather throughout. She will discharge at City Wharf.

We are under obligations to Mr. John T. Little for a file of the Honolulu *Advertiser*, from which we take a few unimportant items:

An election for Representatives to the National Legislature took place on the 6th ult. The Catholic party polled 1200 votes, and were successful in returning all but one of their candidates. The members generally are anti-Administration.

Mrs. Jane Young Lahilahi Kall, aunt of the Queen, died June 12th.

We learn that during the storm on Sunday the 4th inst., a thatch house at Makawao, owned, and occupied by two natives, was struck by lightning and consumed. Two women were in the house at the time, but escaped uninjured. The storm was very severe all over the island of Maui, and a large quantity of rain fell.

A. N. AND E. W.'s.—In consequence of the meeting of this flourishing society the other evening, and the non-receipt of a supply from below, soap has advanced materially in price, and saponaceous articles generally have taken a *sud-den* rise. To provide against a scarcity, the President of the Association yesterday ordered fifty cases of Harper Twelvetrees' soap powder for the use of members at the next general meeting, which order *cleaned* the market of that desirable article. Nearly all our second citizens having joined, those of our "first citizens" who possess the necessary qualifications now talk of applying for membership.

The steamer Enterprise discharged freight yesterday morning and left at 10 o'clock on her return trip to Olympia.

One of the Topaze sailors was sent to the chain gang yesterday for a term of 28 days for a breach of discipline aboard ship.

The Emily Harris will leave for Port Moody to-morrow afternoon.

Bricklayers re-commenced work on the new buildings yesterday.

See Mr. Backus' advertisement of auction this morning.

MODERN CHILDREN.—An English magazine writer says:

Children now are brought up on a very different principle from that on which their fathers and mothers were prepared for the wear and tear, for the suffering and temptations of life. The difference between right and wrong, we frequently find now-a-days is made more of argumentative than of practical interest; and it is not unusual to hear a parent discussing with a mere infant the whys and the wherefores, the *pros* and *cons* of everything which it is required to do. A sharp child consequently often gets the best of the argument; the humiliated parent is reduced to silence or sulkiness, according to his individual temperament; and the child sees his advantage, and does not fail to let it appear that he does.

This is a very different system from the laconic "do this" and "do that" of a day gone by; or from that "wholesome neglect," the disgrace and isolation of the juvenile delinquent who was a willing transgressor of established rules. No one was then allowed to plead moral color-blindness to the different shades of right and wrong. Children were not so much experimental'd upon; or brought up in that visionary theoretic school whose training leaves the youthful mind impressed with the idea that nothing is very right and that nothing is very wrong; that much which appears right on the face of it has some demolizing tendency at the root, and that much which at first sight strikes us as wrong, is in fact entitled to some interest, and is more a misfortune of circumstance than an error in act. The moral delinquent of this school is invested with a sort of value, as a chemical test by which to detect some poisonous ingredient in the last new educational tonic administered at the instigation of a successful quack.

The good little brother or sister who has no moral wound to heal is comparatively uninteresting.

JUDAS ISCARIOT TO SHOW IN UPTON.—Artemas Ward, the "Great American Showman," says:

In the Fall of 1860, I shewed my show in Utiky, a truly great city in the State of New York. The people gave a cordial reception. The press was loud in her praises, I day as I was given a description of my Beasts and Snakes in my usual florid style, what was my scorn & disgust to see a big

burly feller walk up to the cage containin' my wax figgers of the Lord's Last Supper, and cease Judas Iscariot by the feet and drag him out on to the ground. He then commenced fur to pound him as hard as he could. "What under the sun are you about?" cried I. "Sez he, "What did you bring this pussylanemas cuse here fur?" & he hit the wax figger another tremenus blow on the head. Sez I, "You egreus ass, that air's a wax figger, a representashun of the false Postle." Sez he, "That's all very well for you to say, but I tell you, old man, that Judas Iscariot can't show himself in Utiky with impunity, by a darn site!" with which obseshun he caved in Judass bed. The young man belonged to 1 of the fust families in Utiky. I sood him, and the Jocry brawt in a verdick of Arson in the 3d degree.

IMPORTS

Per star ENTERPRISE, from Port Townsend—Reynolds, 45 sacks oats; Adair, 2 coops chickens; Edgar & Aime, 200 qr sacks flour. Value, \$45.

DR. HONESTTTER'S STOMACH BITTERS.—The

Bitters are universally acknowledged to be a sure

preventative and cure for Fever and Ague, Flatulence, Heaviness of the Stomach, or any other like

affection. Their effect upon the system is most

miraculous; they give a healthy tone to the system

relieve all morbid matter, and in fact thoroughly

cleanse the system of all impurities. In no case has

it been known to fail, but on the contrary, new vir-

tue has been found in its use. To those afflicted

with any of the above it is of infinite value, and if they

are not the owners of the last in state who is.

All persons who require any subdivision of a lot

should be particular in describing it, otherwise they

may be assessed for the whole lot.

In every case, where possible, the return should

contain a diagram of the subdivision.

THOMAS THORUNCE.

JOHN J. COCHRANE.

HEALTH FOR A SMILING!
Holloway's Pills.

Headaches, Bile, Loss of Appetite, and

Lowness of Spirits.

These Pills require no interruption of business or pleasure; they act mildly on the bowels, strengthen the stomach, and promote a healthy action of the Liver, whereby they purify the blood, cleanse the skin, brace the nerves, and invigorate the whole system. They effect a truly wonderful change in debilitated constitutions, as they create a healthy appetite, correct indigestion, remove bile, giddiness, headaches, and palpitation of the heart.

Weakness and Debility.

In cases of debility, languor, and nervousness generated by excess of any kind, whether mental or physical, the effect of these Pills is in the highest degree bracing, renovating and restorative. They drive from the system the morbid cause of disease; re-establish the digestion, regulate all the secretions, brace the nervous system, raise the patient's spirits, and bring back the power of a perfect health and vigor. They increase the appetite, while they secure perfect digestion to all ordinary food, and release the invalid from restraint in diet.

A Word to Females.

There are no periods, especially in Woman's life, which require so safe passage, judgment and attention. Irregularity in all these critical times to take place, and to lay the foundation of future disease.

The Pill is safe in action, and effective in result, should be taken at certain periods, and the issue will be marvellous both to the young and the middle aged. They prevent nervousness, hysterics, dropsy, and a host of similar serious disorders, by expelling all impurities from the system; therefore none should be without them.

Coughs, Colds, and Asthma.

No medicine will cure colds so quickly as these Pills, when of long duration or settled on the chest, or even though it has assumed the first stage of asthma, they may be relied on as a certain and never failing cure, particularly if the Ointment be well rubbed into the chest and throat night and morning. If this catch the eye of any asthmatic person so bad as even not able to lie down in bed, let him well use these two preparations for only a week, and the result will be marvellous.

Blood to the Head—Diseases of the Heart.

More persons die suddenly from diseases of the heart than the unlearned suppose; in such complaints, the bowels should always be kept well open, as also where there is a tendency of blood to the head. These celebrated Pills purify the blood in an extraordinary manner, and should be taken in copious doses when such symptoms occur, taking care not to overload the stomach; by this means all danger is quickly averted.

Children's Complaints.

It is generally known, but such is the fact, that children require medicine oftener than their parents. Three-fourths of the children die before they attain the age of eight years. Let mothers, then, be wise, and give to their children small doses of these invaluable Pills once or twice every week, in such quantity as may act gently upon the system twice in the twenty-four hours. For infants, a Pill may be crushed and given as a powder in a little water. The gross humors that are constantly existing about in the blood of children, the forerunners of so many complaints, will thus be expelled, and the lives of thousands saved and preserved to their parents.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Dropsy	Inflammation	Sore Throats
Asthma	Indigestion	Indigestion	Stomach
Bilious Complaints	Eructations	Liver Complaints	Gravel
Blotches on the Skin	Eructations	Plants	Secondary
Bowel Complaints	Fever	Lumbago	Symptoms
Colds	Fits	Piles	Tec-Boulou
Constitution of Bowels	Gout	Phthisis	Tumours
Consumption	Head-ache	Pneumonia	Ulcers
Consumption of Bowels	Indigestion	Scrofula, or	Venerable Affect
Consumption	Warts of all kinds	King's Evil	Weakness
Debility		Weakness	from whatever

There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each Box.

Coughs, Colds, Consumption, ASTHMA, BRONCHITIS, ETC.

JAYNE'S EXPECTORANT

HAS BEEN FOR THIRTY YEARS THE STANDARD REMEDY.

It will be admitted that no better evidence of the great efficacy of this EXPECTORANT can be offered than the gratifying results which have been received by its use, and the widespread popularity which for so long a period it has maintained in the face of all competition, and which has created a constantly increased demand for it in all parts of the world. As far as possible this evidence is laid before the public from time to time, until the most skeptical will acknowledge that the pulmonary complaints it is truly an invaluable remedy.

RECENT COUGHS AND COLDS, Pleuritic Pains, &c., are quickly and effectively cured by its diaphoretic, soothi-

ng, and expectorant powers.

AS IT IS SO EASY TO TAKE, It becomes the spasmodic contraction of the air vessels, and by producing free expectoration at once removes all difficulty of breathing.

BRONCHITIS readily yields to the Expectorant. It subdues the inflammation which extends through the wind tubes, and relieves the expectoration, and suppresses all the cough and pain.

CONSUMPTION—For this insidious and fatal Disease no remedy on earth has ever been found so effectual. It subdues the inflammation, relieves the cough and pain, removes the difficulty of breathing, and produces an easy expectoration, when all mucus and obstructing matter are removed from the lungs.

WHO-PUNG COUGH is promptly relieved by this Expectorant. It shortens the duration of the disease one half, and greatly mitigates the sufferings of the patient.

In all cases of Coughs, &c., it will be found to be prompt, safe, pleasant, and reliable, and may be especially commended to Ministers, Teachers, and Singers, for the relief of hoarseness, and for strengthening the organs of the voice.

THIS EXPECTORANT and all of DR. J. A. JAYNE'S FAMOUS MEDICINES, are sold by CURTIS & MOORE and LANGLEY BROS., Auctioneers and Commission Merchants, 24 Yates, Market, Vancouver, and 1011 Clay street, San Francisco.
